HAI

since 1985

www.homeauto.com

Home Automation, Inc. (HAI) was formed in 1985 to provide automation products to the newly emerging automation and controls market. HAI is responsible for many industry firsts including the first integrated security and automation system on the market and the first Internet remote access and control software for residential use. As HAI's product line has grown, the benefits of merging energy conservation with security and remote access has played a larger part in the core of HAI's efforts. HAI's products are available in over 80 countries worldwide.

HAI's home automation systems can be installed in both new home construction and existing homes.

HAI products are sold through a worldwide network of distributors and are installed by dealers in over 80 countries. For information on any of HAI's award-winning products, please visit www.homeauto.com to contact HAI or an HAI dealer near you.

HAI: A proven track record of reliable, affordable, and award-winning products since 1985.

Automation Interface Options

HAI offers many options to monitor and control your home

Multiple options exist to control your home, whether you're inside or outside. Check and adjust lighting, temperature, security, audio, and more from one of HAI's easy to use portable Touchscreen interfaces.

HAI offers video surveillance and recording, which gives you the power to check on your home via PC, PDA, or web-enabled phone. Colorful Touchscreens provide control of your systems via recognizable icons.

Shown at left: HAI's customizable OmniTouch 10p Portable Touchscreen and the Philips Pronto Handheld Touchscreen Remote

HAI OmniTouch 10p

A handheld Touchscreen with Wi-Fi capability to communicate over the home network to an HAI system. Customize the graphical interface to suit your personality and your lifestyle with elements such as your home's floor plan, preferred color scheme, and local weather information.

HAI OmniTouch 5.7e

This Touchscreen includes all the features of the standard 5.7 but adds PoE (Power Over Ethernet), real-time information from an RSS feed, and a customizable graphical interface.

HAI OmniTouch 5.7

With a 5.7 inch full color display, this Touchscreen can be flush-mounted on a wall for easy access to all home functions. A table-top version is also available.

HAI Telephone Access

A simple phone call to your system can provide direct control of systems, or an opportunity to check on your home's status. Out of town for the week and want to ensure your security system is armed and outside lights are on? Dial in and know for certain.

Wireless Key Fob, Keypad, & Panic-Alert Pendant

Add convenience to the control of your home systems. With the push of a button, lights activate and other systems such as access control respond accordingly.
HAI Lumina Mode Switch

With one button you can change lights, audio, and temperature to create the perfect environment for dining, entertaining, or viewing a movie.

With HAI software choices, you can make changes to your home's status from practically anywhere in the world. Call to check on and change the status of your home, or control systems directly from your cell phone. HAI offers solutions that simplify your life.

Award-Winning Software

The industry's smartest, most secure, and easiest to use software

Snap-Link

Using Snap-Link Mobile, graphically control your home via a Smartphone or PDA equipped with Windows Mobile. Quickly adjust and check lights, temperature, webcams, security and more on the go! Or plug the Snap-Link USB key into any Windows computer and it will direct communicate through the secure Ethernet port on your HAI system at home.

Custom Designs & Programs

HAI's software for designing custom OmniTouch 5.7e and 10p Touchscreen interfaces lets you navigate the home through a graphical floor plan or an interface based on a personalized theme. Advanced users can set up and program HAI systems via a PC. Change user codes, lighting, schedules, temperatures, display languages, and see your home's status.

Home Control for Windows Media Center

This software runs on a Windows Media Center computer to control temperatures, lighting, and security via a television all through a single remote control. Change lighting, temperature, and security as easily as changing a channel!

Pronto-Link

Use a TSU9800, TSU9600, or TSU9400 Philips Pronto remote to control the home theater; adjust lights, temperatures, security settings, and multi-room audio systems such as Hi-Fi by HAI.

WL3 for Windows Home Server

An add-in for Windows Home Server that lets you monitor and control your HAI Home Control System from any device with a web browser (iPhone, iPod Touch, BlackBerry, Smartphone, computer, PDA). Also serves as a DVR for IP surveillance cameras.
